## “LIFE OF PRIVILEGE EXPLAINED”

*Strong Inside*

Link: <https://www.youtube.com/watch?v=4K5fbQ1-zps>

Directions: Just like in the video, you are going to answer the questions regarding your privilege. If you can answer “YES” to the following questions, add two points in the empty box. If you cannot answer “YES” to the following questions, add a zero to the empty box. After you have answered all of the questions, add up your total number of points.

If your parents are still married...	
If you have a father-figure in your home...	
If you have access to a private education... (Could you attend if you / your family wanted?)	
If you have access to a free tutor... (You all do at this school!)	
If you have never had to worry about your phone being shut off... (For money reasons only!)	
If you have never had to help your mom/dad/guardian pay the bills...	
If you do not have to pay for college... (Do your parents have fund for your college?)	
If you never need to worry about where your next meal is coming from...	

Total Points = \_\_\_\_\_

*"Every statement I have made has nothing to do with anything any of you have done. It has nothing to do with decisions you've made... It would be foolish to not realize we have been given more opportunity. We don't want to recognize that we've been given a head start. But the reality is we have."*

Directions: Reflect on the questions above. How would being able to answer “YES” to those questions give someone privilege? Meaning, what is the benefit of being able to answer “YES.” In the spaces below, identify five benefits. Use the example completed in class as a reference.
