CHARACTER TRACKING

The Outsiders

Directions: Within the opening of the novel, we are introduced to the members of the Greasers. Ponyboy not only describes each character for us, but also as readers we are able to form inferences based off each character's dialogue, relationships, experiences, etc. Your group will be assigned one character. In the chart below, you will describe your character. You must use textual evidence to provide and/or support your characterization analysis.
